****NOTE:** The samples shown on this page reflect only the color of the finish. Due to distinctive characteristics and nature of wood, minor variation to color, texture and grain may occur. Therefore, the furniture you receive may not be a perfect match to the samples shown. As the inherent features of the wood vary from forest to forest and from tree to tree, we cannot guarantee an exact match to the "NATURAL (222-NAT)" color chip. We do however, pre-sort components for best match and colour consistency from available stock.
